

CSOB LED Navigation Lights PIREP

By Adam Y. (1960 Debonair Owner)

Found these little gems at Aircraft Spruce:

<https://www.aircraftspruce.com/catalog/elpages/wingtipLED11-14885.php>

\$39.95 for a red and green set of 2. For a little more you can get the full set, red, green, and white. Note that they recommend for proper results, they must be installed behind the colored lenses, even though the LEDs are themselves colored.

I guess so that they aren't too bright or something.

Anyway, out with the old, and in with the new. 5 minutes at MOST:

Nicely compliments my LED TailBeacon, and should reduce power draw and last forever!
